SUBJECT:

UNIT: Executive Officer
UNIT: Collision Investigation Unit

I am requesting to purchase a KIA Motor Group GIT EDR Kit for the Collision Investigation Unit. The EDR Kit is used for the download of Airbag Control Modules from vehicle involved in a crashes. This is an extremely valuable tool for crash investigation. The CIU currently has the Bosch CDR CANplus kit, however KAI is not supported by the Bosch Unit. KIA is currently holds 5% of the market share compared to GM at 16%. KIA sold over 585,000 vehicles in 2020. The CIU has needed the technology from this EDR Kit in several recent fatal crashes. This kit will add capability to the CIU current Hyundai kit. The KIA EDR Kit will keep the Collision Investigation Unit operational as the new manufacturer and model year changes.
