City of Pittsburgh, Equal Opportunity Review Commission 2024 Annual Report

Year: 2024

Quarter: Q1 - Q4

Report Date: March 14, 2025

Introduction

The City of Pittsburgh's Equal Opportunity Review Commission (EORC) plays a vital role in advancing equity and inclusion in city contracting processes. Established under Pittsburgh City Code, Chapter 177A, the EORC is responsible for ensuring that Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), LGBTQ Business Enterprises (LGBTQ-BE), and other disadvantaged business entities have fair opportunities to participate in contracts funded by public dollars, including the City of Pittsburgh and our sister-agencies. The commission monitors compliance with diversity goals, evaluates vendor performance, and fosters accountability among contractors and subcontractors. The Equal Opportunity Review Commission (EORC) reviews and approves all applicable professional service and construction contracts for compliance with Chapter 161 of the Pittsburgh Code of Ordinances, as well as the contractor's compliance with City of Pittsburgh's policies regarding minority and women business enterprise opportunities. It also develops policies regarding employment opportunities for minorities and women in contracting with the City of Pittsburgh and its Authorities.

As part of its mandate, the EORC is submitting this annual report to Mayor Ed Gainey, City Council, and City Controller to provide transparency and demonstrate progress on the City's goals to increase equity in its contracting processes. This report outlines participation by MBEs, WBEs, and other targeted businesses, summarizes the work performed by contracting type, and documents payments received by the vendors, serving as a critical tool to assess and advance equitable economic growth in Pittsburgh.

The EORC is staffed by the Office of Business Diversity (OBD), a unit of the Mayor's Office.

Overview of MWDBE, VOSB, LGBTQIA+ Participation as Prime and Subcontractors in 2024

The City of Pittsburgh's EORC is steadfast in its commitment to ensuring that disadvantaged businesses have equitable access and opportunities to participate in City contracts. Through the implementation of inclusive policies, proactive outreach, and comprehensive compliance monitoring, the EORC works to eliminate barriers that have historically hindered Disadvantaged Business Enterprises (DBE). By fostering a competitive and transparent contracting environment, the commission strives to create pathways for these businesses to thrive and contribute to the City's economic development. This dedication to equity is reflected in the EORC's initiatives to track participation, enforce diversity goals, and provide resources that empower disadvantaged businesses to succeed.

2024 Overall Disadvantaged Business Enterprise Utilization

In 2024, **Disadvantaged Business Enterprises (DBEs)** actively contributed to **99 city contracts** in which payment was disbursed to the prime contractor, encompassing both construction and professional services, with a combined value of \$119.3 million. DBEs are slated to receive **33.1%** of these funds or **\$39.45 million** upon the completion of the projects, reflecting the City's commitment to equitable economic opportunities.

Among these contracts, **twelve** (12) were led by DBEs as **prime contractors**, including **eight** (8) **contracts** awarded to **Women Business Enterprises** (WBEs), **three** (3) to **Minority Business Enterprise** (MBE), and **one** (1) to a **Veteran Business Enterprise**. Those projects in which DBEs are the Prime Contractors are listed below:

- Remittance Processing Solutions
- Series of Interior Remodels of City Pittsburgh Fire station
- South Side Park Design Phase 1
- Professional Auditing Services
- East Liberty/Broad/Frankstown Traffic Signal Replacement
- Citizen Participation Outreach Assistance
- Sheraden Park Phase 1 Improvements
- El Paso Street Remediation
- Highland Park Tennis Courts Upgrades
- Oliver Bath House Renovation- GC
- Three River's Heritage Trail Maintenance and Management Plan
- Construction of Public Works 4th Division Streets Maintenance Facility

2024 Overall Subcontractor Disadvantaged Business Enterprise Utilization

The **subcontractor distribution** further illustrates the participation of diverse businesses. In 2024:

• 111 subcontracting roles were filled by MBEs,

- 141 subcontracting roles were filled by WBEs,
- 25 subcontracting roles were filled by Veteran-Owned Small Businesses (VOSBs), and
- one (1) subcontracting role was filled by an LGBTQ-BE

Payment data for the year shows that:

- MBEs received \$2.7 million.
- WBEs received \$4.2 million, and
- VOSBs received \$531,967

However, no payments were recorded for work completed by the LGBTQ+-owned business during this period.

2024 Q1 Disadvantaged Business Enterprise Utilization

In Q1 of 2024, **Disadvantaged Business Enterprises** (**DBEs**) actively contributed to **66 city contracts** in which payment was disbursed to the Prime contractor, encompassing both construction and professional services, with a combined value of \$80.4 million. DBEs are slated to receive **34.3%** of these funds or **\$27.2 million** upon the completion of the projects, reflecting the City's commitment to equitable economic opportunities.

Among these contracts, Nine (9) were led by DBEs as prime contractors, including seven (7) contracts awarded to Women Business Enterprises (WBEs), one (1) to Minority Business Enterprise (MBE), and one (1) to a Veteran Business Enterprise. Those projects in which DBEs are the Prime Contractors are listed below:

- Remittance Processing Solutions
- South Side Park Design Phase 1
- Professional Auditing Services
- East Liberty/Broad/Frankstown Traffic Signal Replacement
- Citizen Participation Outreach Assistance
- Sheraden Park Phase 1 Improvements
- El Paso Street Remediation
- Highland Park Tennis Courts Upgrades
- Oliver Bath House Renovation- GC

2024 Q1 Subcontractor Disadvantaged Business Enterprise Utilization

The subcontractor distribution further illustrates the participation of diverse businesses. In Q1 of 2024:

- 80 subcontracting roles were filled by MBEs,
- 98 subcontracting roles were filled by WBEs, and
- 19 subcontracting roles were filled by Veteran-Owned Small Businesses (VOSBs).

Payment data for Q1 shows that:

- MBEs received \$718,954,
- WBEs received \$315,830, and
- VOSBs received \$63,049

2024 Q2 Disadvantaged Business Enterprise Utilization

In Q2 of 2024, Disadvantaged Business Enterprises (DBEs) actively contributed to **69 city contracts** in which payment was disbursed to the Prime contractor, encompassing both construction and professional services, with a combined value of \$93.3 million. DBEs are slated to receive **34.71%** of these funds or **\$31.7 million** upon the completion of the projects, reflecting the City's commitment to equitable economic opportunities.

Among these contracts, seven (7) were led by DBEs as prime contractors, including five (5) contracts awarded to Women Business Enterprises (WBEs) and two (2) to Minority Business Enterprises (MBE). Those projects in which DBEs are the Prime Contractors is listed below:

- Series of Interior Remodels of City Pittsburgh Fire station
- South Side Park Design Phase 1
- Professional Auditing Services
- Sheraden Park Phase 1 Improvements
- Oliver Bath House Renovation- GC
- Three River's Heritage Trail Maintenance and Management Plan
- Construction of Public Works 4th Division Streets Maintenance Facility

2024 Q2 Subcontractor Disadvantaged Business Enterprise Utilization

The subcontractor distribution further illustrates the participation of diverse businesses. In Q2 of 2024:

- 75 subcontracting roles were filled by MBEs,
- 108 subcontracting roles were filled by WBEs, and
- 21 subcontracting roles were filled by Veteran-Owned Small Businesses (VOSBs).

Payment data for the year shows that:

- MBEs received \$791,151
- WBEs received \$300,352 and
- VOSBs received \$38,747

2024 Q3 Disadvantaged Business Enterprise Utilization

In Q3 of 2024, Disadvantaged Business Enterprises (DBEs) actively contributed to **99 city contracts** in which payment was disbursed to the Prime contractor, encompassing both construction and professional services, with a combined value of \$89.89 million. DBEs are slated

to receive **25.65%** of these funds or **\$69.9 million** upon the completion of the projects, reflecting the City's commitment to equitable economic opportunities.

Among these contracts, **five (5)** were led by DBEs as prime contractors, including **four (4)** contracts awarded to **Women Business Enterprises (WBEs)** and **one (1)** to **Minority Business Enterprises (MBE)**. Those projects in which DBEs are the Prime Contractors is listed below:

- Series of Interior Remodels of City Pittsburgh Fire station
- Professional Auditing Services
- Citizen Participation Outreach Assistance
- Oliver Bath House Renovation- GC
- Three River's Heritage Trail Maintenance and Management Plan

2024 Q3 Subcontractor Disadvantaged Business Enterprise Utilization

The subcontractor distribution further illustrates the participation of diverse businesses. In Q3 of 2024:

- 72 subcontracting roles were filled by MBEs,
- 102 subcontracting roles were filled by WBEs,
- 18 subcontracting roles were filled by Veteran-Owned Small Businesses (VOSBs), and
- One (1) subcontracting role was filled by an LGBTQ-BE.

Payment data for the year shows that:

- MBEs received \$261,124,
- WBEs received \$653,679, and
- **VOSBs** received \$16,322

2024 Q4 Disadvantaged Business Enterprise Utilization

In Q4 of 2024, Disadvantaged Business Enterprises (DBEs) actively contributed to **47 city contracts** in which payment was disbursed to the Prime contractor, encompassing both construction and professional services, with a combined value of \$84.8 million. DBEs are slated to receive **27.81%** of these funds or **\$23.58 million** upon the completion of the projects, reflecting the City's commitment to equitable economic opportunities.

Among these contracts, six (6) were led by DBEs as prime contractors, including five (5) contracts awarded to Women Business Enterprises (WBEs) and one (1) to a Minority Business Enterprise (MBE). Those projects in which DBEs are the Prime Contractors is listed below:

- Series of Interior Remodels of City Pittsburgh Fire station
- South Side Park Design Phase 1
- Professional Auditing Services
- Citizen Participation Outreach Assistance
- Oliver Bath House Renovation- GC

• Three River's Heritage Trail Maintenance and Management Plan

Subcontractor Disadvantaged Business Enterprise Utilization

The subcontractor distribution further illustrates the participation of diverse businesses. In Q4 of 2024:

- 66 subcontracting roles were filled by MBEs,
- 83 subcontracting roles were filled by WBEs,
- 16 subcontracting roles were filled by Veteran-Owned Small Businesses (VOSBs), and
- One (1) subcontracting role was filled by an LGBTQ-BE.

Payment data for the quarter shows that:

- MBEs received \$811,433,
- WBEs received \$1.1 million, and
- **VOSBs** received \$100.064

This breakdown underscores the varying levels of engagement and compensation across different DBE categories, highlighting both progress and areas for continued focus on fostering inclusivity and equity within the City's contracting processes.

No commodities or service contracts received payments under the purview of the EORC in 2024.

See Appendix A for a list of payments received for actual work performed and percentage of the total contract price paid of MWDBE's in 2024.

Vendor List and Tracking Work Performed

As part of the OBD's commitment to ensuring DBEs have access to procurement opportunities within the City, the OBD maintains and monitors a list of certified DBEs within the region in coordination with certifying agencies. By working with certifying agencies like the Pennsylvania Unified Certification Program (PAUCP) and the Small Business

Administration (SBA), the office maintains a comprehensive and current database of certified DBEs. Additionally, the office partners with the Three Rivers Business Alliance to track and engage with LGBTQ+ certified vendors, which has produced a record increase of LGTBQ+ vendors on City contracts. Furthermore, collaboration with the African American Chamber of Commerce allows the office to maintain an updated list of certified Minority-owned businesses, strengthening opportunities for historically underrepresented entrepreneurs. These partnerships help the Office of Business Diversity foster a more inclusive and diverse business environment, as well as ensure our regions DBEs are aware of the contracting opportunities within the City.

Now Available – Public Listing of Current and Previous DBE Vendors on City Contracts

Historically, a comprehensive listing of DBEs, both current and previous vendors on city contracts, as well as the lists of certifying agencies, has not been publicly available. We have made a listing available on our City of Pittsburgh Beacon website: https://www.pittsburghpa.gov/Business-Development/Procurement/Beacon-Online-Procurement. This will be routinely updated to add newly certified and recertified vendors to the available listing.

Next, we are constructing a form for interested vendors to submit their information, including certifications, to be reviewed and added to this listing. Our goal is to provide a centrally located, transparent, and comprehensive list that will assist matching opportunities with vendors and primes to meet our DBE procurement goals.

Procurement Dashboard as Reported in the Q4, 2024 Quarterly Report and Updated Here

The Mayor's Office, OBD, Procurement, and the Department of Innovation and Performance (I&P) are continuing to work on taking our three sources of procurement data and integrating them into a singular dashboard. This will align all procurement-related systems for streamlined operations and enhance efficiency, tracking, and transparency, allowing for better data management and accountability in the City's contracting and business diversity efforts. Those three sources are: OpenGov, B2GNow, and JDE. However, these three sources have never been integrated with each other, making it difficult to ensure information related to procurement and contracting is aligned and accurate within all three systems. This lack of integration has led to inefficiencies, and challenges in maintaining consistency across platforms, highlighting the need for a unified system to improve data accuracy, coordination, and overall effectiveness in procurement management. Once completed our goals are to be able to track the following:

- Cycle time
- Number of vendors at pre-bid
- Number of vendors bidding after attending a pre-bid
- DBE participation, broken down by prime and subs
- Number of results driven RFPs released
- Number of repeat bidders, who after bidder debriefs improve their score on technical and/or budget elements
- Percentage of bids that:
 - o Are responsive
 - Are responsible
 - Meet project budget

In order to build the dashboard, we must first make changes to the current uses of our technological systems starting with both our OpenGov and B2GNow systems. Our Procurement and OBD staff are working with I&P on those changes. The spreadsheets attached to this report are a result of these modifications with our B2GNow vendor. This work is complex, and our systems are not easily integrated. So, it will take some time to make the necessary changes and build the technical infrastructure. We will continue to update you all on our progress in this quarterly report.

Administrative and Policy Initiatives

Overview of the Procurement Modernization Initiative

In 2023, the City of Pittsburgh launched a Procurement Modernization Initiative to modernize our procurement policies, process, and systems to maximize diverse business participation, create access to opportunities for local businesses, and remove barriers for businesses to scale and grow so that everyone has an opportunity to thrive. This effort is lead by Deputy Chief of Staff Felicity Williams, as Executive Sponsor, and staffed by a cross-functional team made up of representatives of the Mayor's Office, Office of Business Diversity, Office of Equal Protection, Procurement, Office of Budget and Management, Law Department, and Innovation and Performance. The outcomes of this effort will enhance the transparency, standardization, consistency, and fairness of the City's contracting processes, as well as reduce

After review of our data, we identified a clear need to prioritize improving our diverse business participation with prime vendors. While we are making strides as a City in our overall DBE utilization, we are still falling short in our realization of diverse business participation among our prime vendors.

To operationalize this work, we have been reviewing city code; aligning policy revisions and policy development to city code and best practices; enforcing dormant portions of city code; engaging and training internal staff; improving external communications; improving our data systems to better measure our work; seeking national technical assistance; and conducting the first Regional Disparity Study for the first time in over two decades.

Annual Procurement Opportunities Fair

Since the launch of our procurement modernization initiative, we have hosted an annual Procurement Fair to engage with vendors and provide valuable insights into our ongoing Procurement Modernization Initiative. This event offers vendors, unions, and residents the opportunity to learn about the latest improvements in our procurement processes and gain a preview of upcoming changes aimed at increasing efficiency, transparency, and accessibility. Through informative sessions, we share key updates on policy reforms and highlight future initiatives designed to streamline how businesses can interact with the City for upcoming procurement opportunities. This fair is a cornerstone of our commitment to keeping the vendor community informed and prepared to successfully navigate our evolving procurement landscape.

The Procurement Fair also provides hands-on training for vendors, equipping them with the knowledge needed to respond effectively to new procurement procedures. Participants can connect with the Office of Business Diversity to learn about resources and programs that promote equitable contracting opportunities. Additionally, the event showcases a variety of

upcoming procurement opportunities with the City and partner agencies, allowing businesses to explore potential collaborations. With dedicated networking sessions, the fair fosters connections between vendors, City representatives, and fellow business owners—creating a dynamic environment to build relationships and strengthen partnerships for future projects.

2025 City of Pittsburgh Procurement Opportunities Fair

Date: Tuesday, March 25, 2025
 Time: 8:00 AM – 12:00 PM

• Location: Schenley Park Ice Rink, 10341 Overlook Drive

• Opportunities:

Hear from the Mayor

- Get updates on the work behind our Procurement Modernization Initiative and what's next
- Attend trainings for vendors on changes to our procurement process
- o Engage on the Pittsburgh Regional Disparity Study
- o Connect with the Office of Business Diversity
- Discover exciting procurement opportunities to work with the City and partner agencies
- Network with fellow businesses
- Sessions are free to attend, but registration is required. Register here: https://bit.ly/procure-opp-fair

Annual Project Managers Trainings

Each year since the launch of the procurement modernization initiative, we have also conducted multiple comprehensive training sessions for City department leaders and project managers to ensure they stay informed about key procurement reforms and evolving processes. These annual trainings provide an overview of the latest updates to the City's procurement policies, including changes that affect how departments engage with vendors and manage contracts. A major focus is on keeping Using Departments up to date with the latest regulations and best practices to promote transparency, efficiency, equity, and compliance. By fostering a shared understanding of these evolving standards, we empower project managers to navigate procurement processes effectively and align their practices with organizational goals.

In addition to procurement reforms, these trainings also cover critical updates to the Equal Opportunity Review Commission (EORC) process, emphasizing the importance of equitable access and inclusion in contracting. Project managers receive guidance on developing clear, competitive solicitations and employing best practices for evaluating and selecting responsible vendors. Through interactive discussions, participants learn how to craft solicitations that attract qualified bidders while adhering to standards. This annual initiative is not only aimed at strengthening the capacity of project managers but also gives them an opportunity to share their thoughts and feed as well as support the City's commitment to fair, transparent, and responsible procurement practices.

Our next round of trainings will take place in Q2 of 2025.

Completed Administrative and Policy Initiatives as Reported in the Q4, 2024 Quarterly Report and Updated Here

Established New Pre-Bid Policy

In Summer of 2023, the City adopted and launched a new **Pre-Bid Policy**, the first update since before the pandemic, that establishes a standardized process for access to and knowledge of city procurement opportunities, including:

- When a pre-bid is required to occur
- Advertisement requirements
- Requires the Office of Business Diversity to be in attendance and present, in addition to the Sourcing Specialist and the Using Department
- Staff preparation and meeting requirements about the information to be included ensuring that bidders have access to all of the necessary information to submit a competitive bid

Rebid Invitation to Qualify Pre-Approved Vendor Lists

We also rebid our **Invitation to Qualify (ITQ)** pre-approved vendor lists, which are still currently open and accepting responses on a rolling basis. This creates new opportunities for all vendors to access this category of city procurement opportunities. Within the legislation submitted last year for qualified vendors, MWDBE participation was around 50%. This is an ongoing process, and we will keep you updated in future reports of the MWDBE participation as we continue to accept bids.

Received Guidance and Best Practices from National Expert

Over the last two years, the City collaborated with Tydings, LLC to implement best practices in developing a comprehensive disparity study RFP and to prepare us to conduct a comprehensive Disparity Study by supporting an initial analysis of our procurement process, to make initial progress during the duration of the study, so that we are prepared to implement the forthcoming recommendations after the completion of the study. As a nationally recognized leader in both areas, Tydings LLC has spearheaded similar reforms across the country, ensuring fair and equitable opportunities in government contracting. Their expertise has helped the City refine its policies, enhance transparency, and promote inclusive economic participation. The work that you see above is in part a result of our collaboration with him. Outlined below is a summary of the work completed and/or provided to us to support these efforts:

• Review of Prior Disparity Study

- Legal Framework for Disparity Study Methodology
- Data Assessment Documentation
- Evaluation of the Efficacy of a Multi-jurisdictional Disparity Study
- Drafting of Disparity Study Update RFP and related guidance:
 - National best practices to include corporate sector data into the Disparity Study
 - Examples of publicly available sources of private sector data on patterns of disparity in the private sector
 - In-depth explanation of passive participant theory of discrimination and appropriate use of such data in establishing compelling interest of government in avoiding support or perpetuation of discrimination by prime contractors against MBE subcontractors on private sector contracts.
 - Legal Requirements, Benefits, and Uses for Disparity Study Findings & Recommendations in Procurement Reform Deliberations
 - Sample Disparity Study RFPs for review and consideration
 - Drafting our actual Pittsburgh Regional Disparity Study RFP
 - Litigation examples based on Disparity Study's conducted across the country
- Technical Assistance to support our Procurement Modernization initiative
 - Identified reform areas to our procurement process that we are considering and prioritizing
 - Provided examples of Small Business Economic Development Advocacy (SBEDA) recommended ordinances
 - Best Practices in Bid Solicitation and Contract Terms for MBE Program Compliance
 - o Administrative forms from City's for bifurcated bid solicitation process

In Progress Administrative and Policy Initiatives

New Solicitation Templates

In an effort to enhance our procurement processes, we are undertaking a comprehensive revision of our existing standardized documents, including our solicitation templates, starting with the Invitation for Bid (IFB) solicitation template. This revision clarifies our award process to the lowest, responsive, responsible bidder; the definition of a responsible bidder; the definition of a responsive bidder, the terms of rebid to ensure a competitive process, as well as enhanced requirements and expectations on the City's approach to MWDBE, VOSB, and LGBTQ-BE participation and evidence of good faith effort. These changes will ensure that:

- Vendors have notice of the review and selection process, as well as their role and responsibilities prior to the submission of their bids.
- That we will not select vendors, who are neither responsive nor responsible, redefining responsiveness that it is inclusive of our MWDBE, VOSB, LGBTQ-BE goals and good faith effort requirements, and thus moving this review up in the process from post-selection to pre-selection as required by City Code
- Ensuring all requirements included in City Code are met

Overall, these revisions will not only uphold the integrity of our procurement process, but also ensure that we fully comply with all pertinent requirements outlined in the City Code.

We have completed the IFB template revisions and will implement the revisions on the upcoming Brighton Heights Senior Center solicitation. In addition, we will be implementing a new review and selection process to ensure bids are being properly reviewed and the lowest, responsible vendor is being selected.

New Review and Selection Policies

To align the changes to our solicitation templates with our internal policies we are also developing review and selection policies to remove disparate habit and standardize that will improve transparency, compliance, and ultimately ensure the selection of the best vendors for the City. As above, we are starting with the review and selection process for IFBs to separate the process of opening bid documents from the opening of cost proposals, thereby establishing a formal review of responsiveness and responsibility before identifying the lowest bidder. This approach adheres to best practices and legal standards, ensuring that all submissions are thoroughly evaluated prior to selection. Additionally, have developed specific checklists for both the Sourcing Specialist and the Project Manager: the former will focus on conducting the responsiveness review, while the latter will oversee the responsibility review. Once we complete IFBs, we will move on to other solicitation types.

We are currently in the process of the rollout of both the new IFB template as well as the review and selection process. By aligning these processes and systems, we are not only establishing standardized documents and new policies where needed, but also ensuring that all staff are trained to understand and effectively implement these changes. This comprehensive strategy will facilitate adherence to city code and improve our procurement processes overall.

Process Mapping of Each Solicitation Type

We are focused on process mapping each type of solicitation, including Requests for Qualifications (RFQ), Requests for Proposals (RFP), Invitations for Bid (IFB), and Invitations to Qualify (ITQ). Collaborating closely with the Procurement Team and Using Departments, we are creating a digital representation of each step within the current procurement system, categorized by the different solicitation types. This will result in a centralized map that simplifies the procurement process for internal employees, enabling them to gain a clear understanding of the existing workflows. By visualizing the current processes, employees will be better equipped to identify and address barriers, such as ambiguities in roles and responsibilities, the absence of established standards, and points where bottlenecks occur. With this foundation in place, we can initiate targeted process improvements, ensuring that they are not only standardized, but also thoroughly documented for future reference, efficiency, and training.

Equal Opportunity Review Commission (EORC) Process Improvements

Additionally, the OBD is implementing robust process improvement measures aligning with the mandate of Section 177A in city code to monitor contractor performance against diversity goals; establish a thorough orientation for onboarding new EORC commissioners; implement EORC meeting advertisements, meeting preparation standards, and standards for both commissioners and vendor presentations; as well as developing a subcommittee to focus on policies and regulation recommendations.

- Process Mapping Mayor's Office staff worked in collaboration with the OBD to Working with the Office of Business Diversity (OBD) to create a digital copy of each step within the current EORC process, including post-contract compliance review of vendor payments. As above, with our overarching procurement process, EORC process mapping, resulted in a centralized map for internal employees to gain a clear understanding of the existing workflows. By visualizing the current processes, employees have been better equipped to identify and address barriers, such as ambiguities in roles and responsibilities, the absence of established standards, and points where bottlenecks occur. With this foundation in place, we have initiated targeted process improvements, ensuring that they are not only standardized, but also thoroughly documented for future reference, efficiency, and training.
- Alignment with Section 177A of City Code The alignment of the Equal Opportunity Review Commission (EORC) with Pittsburgh City Code is essential to ensure consistency, transparency, and effectiveness in its operations. To achieve alignment with city code, we conducted a thorough review of each line of Section 177A to map current status and/or existing process, whether it was a OBD or procurement responsibility, any other teams that might be included, and a timeline with notes of needed improvements. This has been followed by establishing EORC policies to ensure that practices reflect current legal requirements and enhance EORC operations.
- **Resulting Process Improvements** The first step in process improvements that we have completed are changes to EORC meeting agendas and format. These changes are aligned with the practices of other city commissions with analogous functions, like the Planning Commission. Those changes are outlined below:
 - o EORC meetings are back to being hybrid meetings, offering both in-person and virtual options.
 - All EORC meetings are now advertised at least 3 days in advance in a newspaper of general circulation
 - The agenda for every meeting is now posted at least 24 hours in advance of the meeting on the EORC's website, as well as at the meeting location
 - The following changes have been implemented to a now standard meeting agenda:
 - Standardized the following as reoccurring agenda items:
 - Introduction/Roll Call
 - Approval of Minutes
 - Public Comment
 - Current Month's Plans (Review and Action)

- Tabled Plans (Review and Action)
- ITQ Contracts (Notice Only)
- Commissioner Comments
- Office of Business Diversity Comments
- We have also added information to the agenda itself and website on how to register to speak, leave public comment, and attend meetings; links to project plans on the EORC website for public access; mandatory attendance and presentations by Primes and Subcontractors for projects
- Developed a standardized template for a recommendation document to commissioners stating whether staff is making a positive or negative recommendation for approval and the supporting reasons. According to city code, the OBD is required to present a staff recommendation to the EORC before the Commission votes. This template includes:
 - Overview of the project
 - Analysis of the selected vendor's outreach to DBE subcontractors
 - Overview of DBE participation in relation to city goals
 - Dollar amounts allocated to DBE subcontractors
 - OBD's recommendation regarding approval or denial of the plan
 - Furthermore, template language has been created to outline meeting and presentation requirements for vendors. These guidelines will help vendors effectively demonstrate their efforts to engage DBE subcontractors in awarded contracts. Prime vendors will be informed of the necessity to have representation from their subcontractors at EORC meetings, thereby confirming their commitment to utilizing those DBEs on the project. This approach will also provide transparency to DBE contractors regarding expectations from their Prime vendors.
 - Developed template language to vendors establishing meeting and presentation requirements, including:
 - Made it mandatory for Primes and Subcontractors for projects to attend and present at the meeting
 - Outline presentation guidelines to demonstrate their efforts to add DBE subcontractors onto their awarded contract
 - Informing Prime vendors, they need to have representation of their subcontractors at the EORC meeting to confirm they are committed to utilizing those DBE's on the project. In addition, this gives those DBE contractors transparency into the process of what to expect as the Prime vendor and of your Prime vendor.

Further Changes are forthcoming related to discrepancies between vendor's commitment, as approved by the EORC, and actual numbers reported by the contractors and their identified partners/subcontractors, alert notices, violations, and actions recommended by the EORC to the administration regarding unresolved discrepancies with vendors.

Under the leadership of Mayor Ed Gainey, we have assembled the largest consortium of public partners in recent history, comprised of the City of Pittsburgh, Allegheny County, Housing Authority of the City of Pittsburgh (HACP), Urban Redevelopment Authority (URA), Parking Authority, Pittsburgh Water (formerly PWSA), and the Stadium Authority to undertake all necessary and reasonable steps to ensure that minority-owned, womanowned ("MWBEs"), and LGBTQ-owned (LGBTQ-BE) businesses are afforded equitable opportunities to participate in local government and other contracts within our region. Study Consortium members are keenly interested in ensuring that their public contracting and purchasing funds are not spent in a manner that in any way contributes to or perpetuates the effects of marketplace discrimination.

To achieve this goal, we have sought a consultant to conduct various work elements in a business disparity causation analysis study that:

- Determines the availability of MWBEs and LGBTQBEs within the relevant market area(s) creating a regional database;
- Identifies the nature of, and determines the extent to which, any barriers may have resulted in disparities in the utilization of available MWBEs and LGBTQBEs in public and private sector contracts;
- Analyzes the contracting and procurement data of each Study Consortium member to determine its respective MWBE and LGBTQBE utilization, as well as the Study Consortium's collective utilization as a whole;
- Determines the extent to which any identified disparities by any member of the Study Consortium, and by the Study Consortium as a whole, might be impacted by discrimination;
- Identifies and summarizes related findings from previous disparity studies and research;
- Analyzes the effectiveness of various race-and gender-neutral remedies and practices previously undertaken in the relevant marketplace; and
- Determines the broader economic development impacts from any race- and genderconscious programs and policies in the region; and
- Reviews existing procurement programs, policies, and practices; makes
 recommendations that are narrowly tailored to remedy the effects of any identified
 discrimination and to reduce or eliminate any other marketplace barriers that
 adversely affect the utilization of MWBEs and LGBTQBEs by Study Consortium
 members

The Pittsburgh Regional Disparity Study will be the first in over twenty years, far beyond the requirement to provide an updated disparity study every five-years in order to set enforceable participation goals for MWBEs. Providing this legal foundation is critical given the recent direction of our federal courts both reversing longstanding legal doctrine and bringing increased scrutiny to efforts that promote diversity, equity, and inclusion. The policy positions of the incoming federal administration only further the need to ensure we continue to address historic disinvestment and systemic inequities that hinder the economic

and population growth of the historically marginalized communities in our region. We will have a kickoff for the Disparity Study in Q2 of 2025.

Project Status and Timeline

We have selected a study consultant MGT Impact Solutions, LLC., and with the authorization of City Council, have completed the contract negotiations with them. We have begun the process to kickoff the disparity and plan engagements beginning in Q2 of 2025.

Regional Workforce Equity Agreement

In Q4 of 2024, we secured the commitment of the Housing Authority of the City of Pittsburgh (HACP) and the Urban Redevelopment Authority (URA) to join the City in a Regional Workforce Equity Agreement (RWEA) including the following core terms:

- Implementing equity contracting program requirements for both job quality and diverse workforce participation standards on construction projects either through our purchasing, development financing, and real estate processes.
- Requiring prevailing wage rates, fringe benefits, and worker protections for workers on those construction projects;
- Requiring apprenticeship utilization on those construction projects to increase the supply of a highly trained, skilled, and diverse workforce;
- Establishing a Regional Oversight Committee that will govern this agreement and its implementation;
- Establishing a Project Advisory Committee for collective strategizing to support implementation of this agreement, as well as problem-solving, resolving challenges, and connecting contractors, community partners, and workers to available resources; and
- Establishing and contributing to a Technical Assistance Fund to support training, supportive services, recruitment, and advancement for disadvantaged workers.

After receiving authorization from City Council, we are working to finalize the agreement and have already begun preparing for implementation internally:

- Engaging critical city departments
- Working with B2GNow on implementing the workforce module that was authorized as well
- Developing a work plan with our Procurement for Goods technical assistance
- Selected three (3) RFPs to implement workforce requirements

Implementation is targeted to start for the Spring 2025 construction season.

Conclusion

Mayor Gainey's administration remains deeply committed to fostering equity, transparency, and inclusivity in our contracting processes. Through a combination of detailed reporting, targeted policy initiatives, and innovative tools like the B2GNow system, the OBD and the EORC continues to monitor and support the participation of Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), LGBTQ Business Enterprises (LGBTQ-BEs) and other disadvantaged groups in city contracts.

Through proactive policies, diligent oversight, and strategic partnerships, the City continues to make significant strides in creating opportunities for Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), Veteran-Owned Small Businesses (VOSBs), LGBTQ Business Enterprises (LGBTQ-BEs), and other disadvantaged businesses. The Q4 2024 report highlights both the progress made and the areas that require further attention to ensure a truly inclusive economic landscape.

In 2024, DBEs made significant contributions to 99 contracts totaling \$119.3 million, with diverse participation highlighted both as prime contractors and subcontractors. The data presented in this report underscores the EORC's role and commitment in monitoring and advancing disadvantaged business participation. DBEs contributed significantly to City contracts, with a total of \$39.45 million allocated to them. While successes such as increased engagement with LGBTQ+ vendors and strengthened partnerships with certifying agencies demonstrate growth, disparities in payments to certain groups reveal the ongoing challenges that must be systemically addressed.

Efforts to modernize procurement through initiatives such as the comprehensive revision of our solicitation templates and the development of new review and selection policies mark a significant step toward enhancing the integrity, transparency, and compliance of our procurement processes. By updating the Invitation for Bid (IFB) template, we are clarifying key definitions, strengthening our commitment to MWDBE, VOSB, and LGBTQ-BE participation, and ensuring all City Code requirements are met. The implementation of a formalized review process—separating the evaluation of responsiveness and responsibility from cost considerations—ensures a fair and thorough assessment of all bids. With the rollout of these new templates and policies, starting with the Brighton Heights Senior Center solicitation, we are standardizing practices, improving staff training, and ensuring the selection of the lowest, responsive, responsible bidder. These initiatives will not only enhance compliance but also foster a more equitable and effective procurement system for the City.

Looking ahead, the City will continue refining its policies, enhancing data systems, and fostering collaboration with key stakeholders to drive sustainable progress. Mayor Gainey's administration remains steadfast in its commitment to advancing equity, transparency, and inclusivity across all contracting processes. The combined efforts of the OBD, OEP, EORC, Law, and City Departments alongside proactive policy reforms and innovative tools like the B2GNow system, reflect a comprehensive strategy to support and expand opportunities for disadvantaged businesses. While the 2024 data highlights great progress—particularly in increased participation and improved oversight—ongoing disparities underscore the need for continued focus and systemic solutions. Through modernized procurement practices, enhanced review processes, and

strengthened partnerships, the City is building a more inclusive economic landscape where all businesses have the opportunity to thrive. These collective efforts reaffirm the administration's dedication to fostering long-term, equitable growth and ensuring that City resources benefit the entire community.

Through ongoing evaluation, transparency, and stakeholder engagement, the EORC remains steadfast in its mission to advance equity, remove barriers, and create meaningful opportunities for disadvantaged businesses. As these initiatives take shape, the City of Pittsburgh is well-positioned to build a more inclusive economy where all businesses—regardless of size or ownership—can thrive.

APPENDIX A: MWDBE, VOSB, LGBTQ-BE Participation as Prime and Subcontractors

| | I | ı | | | <o>wny is ii recruiting so complex?</o> | 1 |
|------------------------------------|----------------------|------------|-----|-------|--|---------|
| | | | | | In this crazy world of automated recruiting, do you ever wonder how | |
| | | | | | anyone ever wades through this electronic maze to identify a quality | |
| | | | | | candidate? I often think of that myself. When everyone is lumped into | |
| | | | | | an electronic pile how do you extract true talent? | |
| | | | | | Why would a high value candidate want to be lost within the masses of | |
| | | | | | that pile? In days past when resumes were on paper, candidates would | |
| | | | | | find odd color paper and paper that was thicker so they would stand | |
| | | | | | out. This is where working with an experienced expert to find unique | |
| | | | | | candidates will make your life easier. | |
| | | | | | The numbers recruiting game does not often yield the candidates you | |
| | | | | | want. Not to say that it doesn't happen, however, in most cases the | |
| | | | | | gems I find are often passive candidates. They are the ones that light | |
| | | | | | up my senses in the first few seconds of speaking with them. I often | |
| Testa Consulting Services Inc | 108 Wingate Dr | Pittsburgh | DΛ | 15205 | find them through referrals from colleagues of mine tha | LGBTQ+ |
