

CITY OF PITTSBURGH
CAPITAL PROJECTS AND ACCOUNTING
CLOSE AND REPORT

MAY 29, 2018

PREPARED BY
THE OFFICE OF THE CONTROLLER

MICHAEL E. LAMB
CONTROLLER

COVER LETTER

MICHAEL E. LAMB

CITY CONTROLLER

First Floor City-County Building • 414 Grant Street • Pittsburgh, Pennsylvania 15219

May 29, 2018

Honorable Mayor and
Members of City Council

In compliance with Ordinance 29, Chapter 218.08, paragraph (2), the Controller's Office is submitting the following schedules:

1. A complete list of unexpended capital expenditures from previous capital budgets of at least three (3) years old with detailed information on account code numbers, account balances and project description. We have also noted in the Project Status column if the project is closed or completed. A project would be completed if amount budgeted is completely spent. This is Exhibit 1.
2. Project accounts identified to be closed out and for what reason the identification has been made. This list was compiled by the Mayor's Office of Management and Budget and confirmed by the department assigned to the project. Although other projects could probably be closed, this is only the list of project agreed upon by the departments. This is Exhibit 2.
3. A complete reconciliation of all unexpended Capital Expenditures against the current bank balance is displayed in Exhibit 3. Since Funds 40001 and 40011 do not have sufficient cash to cover all projects with remaining budget balances, the unallocated cash will be used as needed to cover projects where no or insufficient cash has been allocated.
4. A list of all unencumbered or unexpended funds at the end of the closed fiscal period for any approved capital projects funds. This is a combination of Exhibit 3 and 4.

All information was derived from the JDE Financial Information System. Based on information entered into this system, I hereby certify that the above schedules are correct and fairly represent the financial position of the Capital Project Funds as requested. This is the sixth Capital Projects Accounting Close and Report as per Ordinance 39. Your feedback is welcome.

Respectfully submitted,

Michael E. Lamb

Controller
