

City of Pittsburgh
Sewer Facilities Planning Module Questionnaire

PROJECT NAME:

1) What was the previous permitted use for this property? *The project area consisted of early 1900s housing and storefronts which have since been abandoned and razed.*

2) What is the proposed use for the property? *A multi-use 4-story commercial building*

3) How is green stormwater mitigation being integrated into the proposed project?

An underground detention BMP will be used as a tool in dealing with thermal mitigation. Pervious paver on a portion of the sidewalks will be utilized.

4) Will the development result in a net positive or net negative change in stormwater flow?

The stormwater management proposed will create a net negative change in stormwater flow.
