

City of Pittsburgh
Sewer Facilities Planning Module Questionnaire

PROJECT NAME: Carnegie Mellon University Richard King Mellon Science Building

1) What was the previous permitted use for this property?

Parking lot, higher education academic building

2) What is the proposed use for the property?

Higher education academic building

3) How is green stormwater mitigation being integrated into the proposed project?

The proposed project includes proposed green infrastructure including green roof assemblies, bioretention, and underground detention vaults. The stormwater management facilities implemented as part of this project will reduce the rate and volume of the proposed runoff and improve the quality of the proposed stormwater runoff.

4) Will the development result in a net positive or net negative change in stormwater flow?

After the implementation of the proposed stormwater management system, the development will result in a net negative change in stormwater flow.
