President and Members of Council
Council
City of Pittsburgh

RE: Interim Approval
Vermeer-Forestry Division

Dear President Members of Council:

The Department of Public Works requests your immediate approval to authorize a warrant in favor of Vermeer, for a Mini Skid Steer needed for the Forestry Division,

This Mini Skid is critical for the day to day operations at City Forestry. Having this resource allows for more efficient time management with the loading of logs and vegetation/debris. It is necessary for Forestry when cleaning ROWS (right of ways) for storm damage and allows Forestry to not be dependent on the Heavy Equipment Division to respond for clean ups and emergencies.

The total cost of this warrant will not exceed \$ 9,437.26 and can be paid from the following operating line item: 11101.420000.57.57501.2023.

To expedite this request, we are requesting a Waiver of Rule 8.

Your favorable consideration is hereby requested.

Sincerely

Chris Hornstein (Jul 6, 2023 15:47 EDT)

Chris Hornstein
