- Proposed Access
- Angled

PROPOSED SITE ACCESS

Your parcel will be accessed from 40th Street, with equipment mobilized onto the Three Rivers Heritage Trail.

ESTIMATED DURATION OF DISTURBANCE

Four (4) weeks from start of work.

ADDITIONAL NOTES

Approximately 70'x32'x30' (l x w x h) of temporary workspace will be needed around the boring location to safely accommodate two full-size pickup trucks and a truck-mounted drill rig with a 30-foot-high derrick/mast. Vehicles and other objects in the temporary workspace area will need to be moved. Approximate 15' wide access path from street to work zone will be needed. Please be aware that the proposed boring locations depicted are subject to reasonable adjustments to avoid underground and overhead utilities.
