§416.20 - APPROVAL PROCESS FOR SIDEWALK CAFÉ, INCLUDING PERMITS AND FEES.

A proprietor wishing to establish a sidewalk café must follow the process described below. Responsibilities of the departments include, but are not limited to, those described. For expediency and to benefit the applicant, each department shall complete its responsibilities within ten (10) days.

- A. *Department of Public Works (DPW)*. At DPW, the proprietor obtains an application form for a permit to encroach on the public right-of-way with a sidewalk café. A checklist of sidewalk café requirements, delineating the steps to be followed in acquiring a sidewalk café permit, is issued to the applicant.
- B. *Department of Public Works*. Applicant returns to DPW with a completed application. As part of the application for a sidewalk café, applicant shall submit a site plan conforming to the specifications in Sections **416.20 (416.09)** and 922.01.d.1. The proposed site plan for the sidewalk café must be attached to the required permit application. Sample plans are available from DPW. The permit fee is due at this time, at one dollar (\$1.00) for each square foot of café area (Gross square footage). Also due at this time is a certificate from the proprietor's insurance company, naming the city as co-insured, with minimum amounts of one hundred thousand dollars (\$100,000.00) to three hundred thousand dollars (\$300,000.00)-public liability and fifty thousand dollars (\$50,000.00)-property. DPW issues a printed notice that the application has been accepted, but not approved.
- C. *Zoning*. DPW sends the applicant to the zoning counter, with the application, and with DPW's notice of acceptance. The application is registered and the applicant pays a one-time filing fee at the zoning counter. Zoning will verify that the applicant has a valid certificate of occupancy for the primary use of the property. A certificate of occupancy for a sidewalk café will not be granted without a valid certificate of occupancy for the primary use.

The zoning department reviews the site plan design of the proposed sidewalk café. If disapproved, the applicant is given an opportunity to revise the site plan to meet zoning's requirements. If the proposed sidewalk café is to be in an historic district, there will be an additional level of review by the local body that provides historic review for that site. Zoning marks the site plan as approved and directs the applicant to the Department of Permits, Licensing, and Inspection.

- D. *Department of Permits, Licensing, and Inspection (PLI)*. PLI checks the applicant's record for violations. Any violations must be rectified before a sidewalk café permit can be issued. No permit can be issued unless the proprietor has a valid occupancy permit for the establishment that the sidewalk café will

abut. Upon being cleared of violations, and consistent with the requirement for commercial venues, the applicant must submit a site plan, prepared and sealed by a licensed architect or engineer, to PLI's Plan Examiner. This plan must contain the sidewalk café seating layout, aisles, enclosure, ADA requirements, and means of egress, including egress from the main restaurant to the curb. The Plan Examiner will review the site plan for compliance with City Code and for compliance with the Americans with Disabilities Act (ADA). The applicant then pays a one-time fee for the certificate of occupancy for a sidewalk café. PLI will inspect and issue the certificate of occupancy for a Sidewalk Café, if approved. A copy of the site plan will be given to the applicant to be maintained at the establishment. The applicant will receive a copy of the certificate of occupancy by mail. Upon completion of PLI's process, PLI will forward the sidewalk café application packet, including DPW's notice of acceptance, the certified site plan, and a copy of the certificate of occupancy for a sidewalk café, to DPW.

- E. *Department of Public Works.* A DPW representative conducts a field survey to check the accuracy of information submitted in the proprietor's application for a sidewalk café.
- F. *City Council.* When it is deemed that the application is completed fully and correctly, the Director of Public Works submits the application to the District Council Person. The completed checklist of sidewalk café requirements is included in the packet provided to the District Council Person. The City Council Member representing the district where the café is proposed shall acknowledge, in writing, having reviewed the application, prior to issuance of the permit.
- G. *Department of Public Works.* The Director of Public Works notifies the applicant of the City's decision. If approved, the sidewalk café permit is issued by the Department of Public Works. A DPW representative demarcates the margins of the approved sidewalk café on the sidewalk. If the proprietor wishes to change the sidewalk café from the approved site plan, a new application and review process is required.

(Ord. No. 4-2009, § 1, eff. 1-1-10; Ord. No. 18-2010, § 1, eff. 6-14-10)
