Ordinance supplementing the Pittsburgh Code of Ordinances, Title IV: Public Places and Property, Article XI: Parks and Playgrounds, Chapter 473: Use Regulations, § 473.05 - Behavior; by adding new language designating parks and playground as "Tobacco-Free."

WHEREAS, in Pennsylvania, more than 858,000 young people are exposed to tobacco smoke pollution every day; and

WHEREAS, the United States Surgeon General has stated that there is no safe level of exposure, whether indoors or outdoors, and that children's exposure to secondhand smoke causes increased risk of sudden infant death syndrome, lower respiratory infections, middle ear diseases, more severe asthma, respiratory symptoms and slowed lung growth, and is responsible for the premature deaths of more than 430,000 Americans each year from lung cancer, heart disease, respiratory illness and other diseases; and

WHEREAS, secondhand smoke is responsible for more than 50,000 deaths among nonsmokers each year; and

WHEREAS, tobacco kills more Americans each year than alcohol, cocaine, heroin, homicide, suicide, accidents, fire and AIDS combined; and

WHEREAS, 80 percent of smokers started smoking before the age of 18, and the average initiation age is 12 years old; and

WHEREAS, everyday, an estimated 3,900 young people under the age of 18 try their first cigarette. Furthermore, one-third of these children will die prematurely from tobacco related illnesses; and

WHEREAS, this Ordinance will promote non-smoking behavior to children and youth, and will provide children, youth and their families with a safe, smoke-free environment.

Now therefore be it resolved by the Council of the City of Pittsburgh as follows:
