Date	Ver.	Action By	Action	Result
8/1/2016	1	City Council	Adopted	Pass

WHEREAS, On May 27 President Obama became the first sitting president to visit Hiroshima, where he called for us to choose a “future in which Hiroshima and Nagasaki are known not as the dawn of atomic warfare but as the start of our own moral awakening;” and,

WHEREAS, August 6 and 9, 2016 mark the 71st anniversaries of the U.S. atomic bombings of Hiroshima and Nagasaki, where over 210,000 people were killed and countless others were exposed to radiation, and 2016 marks the fifth anniversary of the disaster at the Fukushima Daiichi power plant; and,

WHEREAS, the world's nuclear arsenals include 15,350 warheads, which currently have the explosive power of approximately 200,000 Hiroshima bombs and are capable of destroying all cities in the world the size of Pittsburgh or larger, posing an intolerable threat to people everywhere; and,

WHEREAS, the potential for the use of nuclear weapons has become greater than ever before as a result of widespread stockpiles of poorly secured nuclear materials, the escalation of terrorism, expanded proliferation and escalating political tensions, all of which have increased the risk of both intentional and accidental launch; and,

WHEREAS, in June of 2012 the U.S. Conference of Mayors unanimously passed a strong resolution calling for the “abolition of” nuclear weapons by 2020, and in subsequent years expressed support for the goal of the Vision 2020 Campaign led by the Mayors of Hiroshima and Nagasaki; and,

WHEREAS, the U.S. is on track to spend \$1 trillion on nuclear weapons and related programs over the next

thirty years and this "modernization" plan is creating a new international arms race, whose escalating costs are forcing Congress to divert funds from essential programs, including education, health-care, and job training; and,

WHEREAS, Remembering Hiroshima, Imagining Peace (RHIP), has brought together an impressive coalition of Pittsburgh organizations, institutions and individuals to work toward the elimination of nuclear weapons and to raise awareness of the problems related to nuclear power through education, activism, advocacy and art; and,

WHEREAS, the 2016 work of RHIP includes pop-up exhibits of "Strange Beauty: Autoradiography from Fukushima" at various locations around Pittsburgh; the screening of *Containment* by the Pittsburgh Filmmakers followed by a Skype exchange with peace activists in Japan on August 5; and a 20 km ***Bike Around the Bomb*** on August 6 to raise awareness of the destruction that would occur if a small nuclear bomb were dropped on our city; and,

NOW, THEREFORE BE IT RESOLVED, that the Council of the City of Pittsburgh recognizes the need to reduce spending on nuclear weapons to the minimum necessary to assure the safety and security of the existing weapons, and also does hereby recognize and commend the important work of Remembering Hiroshima, Imagining Peace and their advocacy for the reduction of stockpiles and safer handling procedures worldwide as steps toward a world free of nuclear weapons and for raising awareness of the value of renewable energy and the perils associated with using nuclear power as an interim technology.
