Ordinance amending Title VII Business Licensing, Article X Rental of Residential Housing Chapter 782 Temporary Eviction Regulation For Disease Prevention and Control Due to COVID-19 to strengthen its policy directives through certain technical and substantive revisions.

WHEREAS, on March 3rd, 2021, Chapter 782, entitled Temporary Eviction Regulation For Disease Prevention and Control Due to COVID-19, took effect within the City of Pittsburgh, intending to address hardships arising from the COVID-19 pandemic by providing certain temporary eviction relief; and

WHEREAS, since that time, various stakeholders have further informed members of Council as to areas where Chapter 782 might be strengthened through certain technical and substantive revisions; and

WHEREAS, in addition to those findings made by Council via the recitals in Ordinance 6 of 2021, in support of enacting Chapter 782, Council would add the further findings presented immediately below; and

WHEREAS, numerous studies have documented a direct connection between evictions and COVID-19 infection rates and deaths, including the following:

- a. Leifheit, et al., *Expiring state eviction moratoriums and Covid-19 incidence and mortality*

(2020)

- b. Benfer, et al., *Pandemic Housing Policy: Examining the Relationship Among Eviction, Housing Instability, Health Inequity, and COVID-19 Transmission*, J. of Urban Health (2020)
- c. Sheen, et al., *The effect of eviction moratoriums on the transmission of SARS-CoV-2* (2020);
and

WHEREAS, Michael Levy, an epidemiologist at the University of Pennsylvania, predicts that a 1% eviction rate would result in a 5% to 10% higher incidence of COVID-19 infection, leading to approximately 1 death for every 60 evictions; and

WHEREAS, researchers have also found that eviction is a major driver of racial health inequities, particularly during the COVID-19 pandemic (Benfer, et al., *Eviction, Health Inequity, and the Spread of COVID-19: Housing Policy as a Primary Pandemic Mitigation Strategy* (2021)); and

WHEREAS, residential evictions during a pandemic threaten the public health by exposing tenant households to crowded courtrooms, overcrowded living environments, transiency, limited access to healthcare, and a decreased ability to comply with pandemic mitigation strategies; and

WHEREAS, residential evictions during a pandemic threaten the health of not only the tenant households who are subject to eviction but also to the people who the members of those households come in contact with; and

THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF PITTSBURGH AS FOLLOWS

Section 1: The Pittsburgh Code of Ordinances shall be amended at Title VII Business Licensing, Article X Rental of Residential Housing, Chapter 782 Temporary Eviction Regulation For Disease Prevention and Control Due to COVID-19 as follows:

Chapter 782: Temporary Eviction Regulation For Disease Prevention and Control Due to COVID- 19

Section 782.00 Purpose and Intent:

- (a) The City of Pittsburgh recognizes, in line with federal and state authorities that due to the economic and public health circumstances caused by the COVID-19 crisis, the general public health, safety, and welfare requires a temporary and limited regulation on the right to pursue eviction relief against residential tenants. This regulation is intended to protect a basic societal need for housing, the deprivation of which exacerbates the potential of increased community spread of COVID-19 due to unstable housing circumstances and unsheltered homelessness and is not to be construed as impacting a landlords' ability to obtain a judgment for contract damages or absolve tenants of any obligation to pay any amount of rent.
- (b) This Section is intended to supplement rather than replace existing state and federal COVID-19 relief protections put into place to prevent residential evictions.
